

The mileage below is a running count and is approximate. The ride up to Plymouth I would rate a 2 ½ or a 3. Around the Delta max. speed is 55. The parts that may be tricky will be getting on and off the two Ferry's. Once we get onto HWY E16/Shenandoah Rd/Mt. Aukum Rd./Sly Park Rd the rating would be about a 4 ½ only because of the twist and turns. The speed on this road varies between 55 and 40. It can be tiring only because of the twist and turns.

Meeting place McDonalds off I-5 and Meadow View/Pocket Rd corner Almay Vista Way.

Left out parking lot at 9:30 am .1  
miles

At light turn right onto Freeport Blvd/HWY 160

Courtland

Right over bridge and left at stop sign (end of bridge)
